the author of the bestselling discovery in comics series including on science and philosophy tackles a very sensitive subject dealing with religion often means walking on eggshells that is what comic artist margreet de heer finds out when creating this book she presents the five major world religions and modern spirituality in a colourful personal yet serious manner she explores religious history and practices with tact and an open mind but can't prevent a few eggs from breaking this book in comics is fun and informative for both believers and non believers

explaining different scientific disciplines in clear colorful chapters this illustrated primer is a great way to introduce young readers to a complex topic in her easily accessible style margreet de heer visualizes science and makes it approachable for those with little knowledge of the subject touching a number of topics in various scientific disciplines including math chemistry physics biology geology and quantum theory this work ponders questions such as who exclaimed eureka and why why did galileo get into a fight with the church and what happens when you have your dna tested this humorous yet substantive graphic account strips the subject of unnecessary complexity making it a perfect introduction to exploring scientific concepts

comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries and yet relatively little has been written on the translation of comics comics in translation attempts to address this gap in the literature and to offer the first and most comprehensive

account of various aspects of a diverse range of social practices subsumed under the label comics focusing on the role played by translation in shaping graphic narratives that appear in various formats different contributors examine various aspects of this popular phenomenon topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures the import of editorial and publishing practices textual strategies adopted in translating comics including the translation of culture and language specific features and the interplay between visual and verbal messages comics in translation examines comics that originate in different cultures belong to quite different genres and are aimed at readers of different age groups and cultural backgrounds from disney comics to art spiegelman's maus from katsuhiko ōtomo's akira to goscinnny and uderzo's astérix the contributions are based on first hand research and exemplify a wide range of approaches languages covered include english italian spanish arabic french german japanese and inuit the volume features illustrations from the works discussed and an extensive annotated bibliography contributors include raffaella baccolini nadine celotti adele d'arcangelo catherine delesse elena di giovanni heike elisabeth jünger valerio rota carmen valero garcés federico zanettin and jehan zitawi

this illustrated primer on philosophy is a great way to be introduced to a complex topic in her easily accessible style margreet de heer visualizes the history of western philosophy and makes it approachable for those with little knowledge of the subject the book explains the thoughts of philosophers such as socrates plato aristotle descartes spinoza and nietzsche and ponders questions such as what is thinking what is reality is there free will and why are these ideas still important a perfect introduction to exploring philosophical concepts this humorous yet substantive graphic account strips the subject of unnecessary complexity

indie comic inclusion explores the profound impact of independent comics on lgbtq representation and social change moving beyond mainstream narratives the book showcases how indie comics have become a vital platform for marginalized voices offering nuanced portrayals of identity and challenging societal norms these comics provide a space where lgbtq artists and creators can authentically express themselves fostering a sense of community and driving social activism the book argues that indie comics have revolutionized visual storytelling by expanding the scope and depth of lgbtq representation the book begins by establishing the historical context of lgbtq representation in media and the rise of the independent comics scene it then delves into the diverse range of lgbtq identities depicted in indie comics examining how these narratives challenge traditional storytelling conventions through textual analysis interviews and historical data the book demonstrates how indie comics have fostered community building and activism ultimately indie comic inclusion emphasizes the importance of indie comics in promoting inclusivity and empowering marginalized voices within the broader media landscape

youth representation growth explores how coming of age stories particularly in comics shape our understanding of lgbtq youth comics as a visual medium uniquely influence societal perceptions and offer representation for marginalized communities the book argues that realistic and educational comics serve as powerful tools to foster empathy promote understanding and provide positive role models the book traces the evolution of lgbtq representation from subtle allusions to overt depictions influenced by the lgbtq rights movement it uniquely analyzes educational and realistic comics demonstrating their value beyond entertainment for education advocacy and self discovery chapters examine themes like coming out family relationships bullying and community using graphic novels and comics to highlight narrative and visual strategies while also considering the intersectionality of race and class by analyzing a diverse range of comics and academic research including interviews with creators and educators the book demonstrates the

potential of comics as educational resources and platforms for social change this interdisciplinary approach connects to fields like education and gender studies enhancing our understanding of the impact of comics on youth identity

whether one describes them as sequential art graphic narratives or graphic novels comics have become a vital part of contemporary culture their range of expression contains a tremendous variety of forms genres and modes from high to low from serial entertainment for children to complex works of art this has led to a growing interest in comics as a field of scholarly analysis as comics studies has established itself as a major branch of criticism this handbook combines a systematic survey of theories and concepts developed in the field alongside an overview of the most important contexts and themes and a wealth of close readings of seminal works and authors it will prove to be an indispensable handbook for a large readership ranging from researchers and instructors to students and anyone else with a general interest in this fascinating medium
